

Make It Dixon!

Saturday, January 28, 10:30am-Noon
Embudo Valley Library

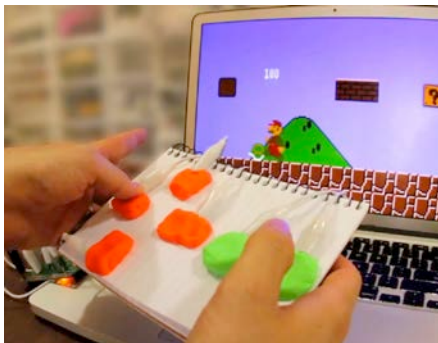

Enjoy a guided, hands-on tour of our new, permanent **MakerSpace**. We will *learn*

1) how to design and print objects on our 3D printer,

2) how to build and program our LEGO robot,

3) and how to better interact with computers with our Makey-Makey.

Our guides will be Marinha Santos and Steve Cox. Marinha will staff the MakerSpace each Saturday morning throughout the spring. Materials and staff come to us from the Northern New Mexico STEM Mentor Collective.
